WESTCOTT
NURSERY COMPANY
FALLS CHURCH, VIRGINIA

"Six Miles from Washington, D. C."

Phone Falls Church 165

LOCATION

Six miles from Washington, D. C., on Annandale Road, south of Falls Church, in Fairfax County. Leaving Washington via the Key Bridge at 35th and M Sts., N. W., turn to right at south end of bridge and follow the concrete and macadam road to Falls Church, which is the Lee Highway out of Washington. After passing through the center of Falls Church you come to the old historic Episcopal Church. Seventy-five yards past the church turn left on macadam road, which goes around our nurseries.

VISITORS

You are always welcome and we will be pleased to show you through our nursery, comprising about 400 acres.

SHIPPING FACILITIES

We ship from Falls Church, Va., over the Washington and Old Dominion Electric Railroad, a former spur of the Southern. This line runs standard freight and express service, making connections at Potomac Freight Yards with all railroads.

TRUCK DELIVERY

Washington and suburbs, or a reasonable distance from our nurseries, delivery by truck is free. For longer hauls it is necessary to charge for delivery.

LANDSCAPE PLANTING

We do landscape planting and contracting. Estimates cheerfully given. Where plans are requested they will be charged for and credited to merchandise if we do the planting and furnish the stock. Our prices are for goods f. o. b. Falls Church or job. Planting is charged for by the hour or day, except when estimates are given for complete job.

MOVING LARGE TREES

We have a crew of experienced men and special trucks and equipment for moving large trees. Our crew has moved some of the largest in this section. If you have a tree, bush or any large plant you want moved and to live, we can do it.

SODDING AND BUILDING LAWNS

We can furnish high-grade sod and will deliver and lay the same by the square yard or on a contract basis. Estimates gladly furnished.

Also can supply high-grade lawn seed, soils, manures and other fertilizers and materials, as well as skilled labor for building lawns. Charges for this service are on a time and material basis, or if preferred at contract prices. Write or phone us if you have any "lawn problems" and we will have some one call.

MISCELLANEOUS

Spraying and pruning done by experienced men that know.

We also furnish soil, leaf mold, manures, bonemeal, other fertilizers, lime, grass seed, peat, spraying material, insecticides, etc.

SHIPPING INSTRUCTIONS

ORDERS. All orders are accepted subject to the following terms and conditions. Write plainly and give explicit directions as to address and mode of shipment.

FORWARDING. Shipments will be forwarded exactly as directed; but where without instructions, we will use our judgment and forward by shortest and safest route.

Claims for damages while in transit or otherwise must be made within five days after the arrival of the consignment.

SHIPPING SEASON. Opens about March 1st in the Spring and September 15th in the Fall.

INSPECTION AND FUMIGATION. Our stock is regularly inspected and certificate will be sent with each shipment. Stock will be fumigated when requested or when the state laws require it. The following is a copy of our state inspection tag.

VIRGINIA DEPARTMENT OF AGRICULTURE

Official Tag No. 1278 Richmond, Va., Sept. 6, 1929

This is to certify that, acting under authority of law, C. R. Willey inspected the nursery premises of **Westcott Nursery Company** at Falls Church, Virginia, on the 25th day of June, 1929, and that the nursery stock on said premises was found to be apparently free from dangerously injurious insects and plant diseases.

This certificate can only be used on the aforesaid stock and such other stock as may be purchased under the official tag of the Department of Agriculture of the State of Virginia. *G. T. French*

State Entomologist and Plant Pathologist

PACKING. All goods are carefully packed, thus avoiding risk, if delayed in transit. We do not charge for packing, if cash accompanies order, otherwise at cost.

TERMS

CASH WITH ORDER, except to persons who satisfy us as to their financial responsibility. When stock is sold on open account, bills are due when invoices are rendered and prompt payment is expected.

STOCK SELECTED by customers at the nurseries will be charged for according to the value of the trees or plants chosen.

All prices subject to change without notice

Prices quoted herein are for stock of our selection. Specimen plants and selected stock will be charged for according to their value irrespective of this list.

We have a number of species and varieties of plants not included in this price list, also large sizes and specimen stock. We will be pleased to quote on any items we have if you will send us you want list. We allow special prices and discounts on large orders.

All orders are accepted subject to terms and conditions of sale as described on the first page of our illustrated catalogue. Write for copy if you do not have one.

GUARANTEE

In growing and furnishing nursery stock, we exercise the greatest care to have the same true to name, and will replace any that may prove otherwise, free of charge, or refund purchase price. We shall not be liable for more than the price paid. Every purchase from us is made on these terms.

All goods are guaranteed true to name, up to grade, full count, and in good condition when delivered. Claims must be made within five days after delivery to customer's delivery point to receive consideration.

We do not guarantee stock to grow, or results in any way unless given with estimate by one of our employees, by letter or on invoice; then only six months from date of delivery. And in no case do we hold ourselves responsible for stock killed or injured by dogs or animals humans, or damage by fire, heat or snow, or conditions beyond our control. Nor do we guarantee stock in any way if planted in tubs, boxes, pots or any other artificial conditions.

This guarantee is void if accounts are not settled within thirty days from date of invoice.

There are so many causes for failure over which we have no control that we can assume no responsibility after stock is delivered in good order. Poor soil, unfavorable weather, ignorant or careless culture—all contribute to failure and all are beyond our control.

A catalog as extensive as this must of necessity offer some plants of difficult culture, and, when these are ordered, we presume the people ordering them have the knowledge needed for their culture. Successful results require knowledge, enthusiasm and perseverance, and these we can not supply, but we shall be glad to make selections from the hardier class of plants for the people who wish them.
